

Note to Coordinator:

Lessons 58 through 60 are review lessons for the entire year.

In Lesson 59 we will review Lessons 23 through 32. We will be working on material for the portfolio. The portfolio will serve as a student assessment tool.

A portfolio can be done in several different ways. We have chosen an “álbum” format. The “álbum” should include pictures to reflect the student’s understanding of the vocabulary. Here are three possible sources for the pictures:

- 1) photos of the students
- 2) magazine cut-outs
- 3) original drawings

We are enclosing here some portfolio examples that students could make for this review section.

In the next class, we will continue the “álbum,” incorporating the items reviewed for those lessons.
